Utility- NRC Interface Workshop - Region III

Accommodations and Hotel Information

The Lisle/Naperville Hilton Hotel is 27 miles from Downtown Chicago. The luxurious Chicago suburban hotel makes it easy for guests to relax and enjoy one of the 309 spacious guest rooms, equipped with cable television, two telephones with speaker phone, voicemail and dataport. The guests' rooms also include a coffee maker, hairdryer, iron and ironing board.

For a little rest and relaxation, guests may enjoy the extensive recreational facilities, including an indoor swimming pool, whirlpool and fitness center.

Local Attractions

The Lisle/Naperville Hilton Hotel is just a short ride away from many famous Mid-West sporting venues including Wrigley Field, Soldier Field and Comiskey Park. There are also some nearby facilities and points of interests: Downtown Naperville/Riverwalk, Danada Town Square, the Morton Arboretum, Naper Settlement, the Oak Brook Mall, the Yorktown Mall, Downtown Chicago, and many more. Nearby recreation includes: riverboat casinos, golf courses, hiking trails, horseback riding, bowling, plus many sightseeing tours.

Area Airports:

O'Hare International (19 miles/25-35 minutes)

Take 294 South to 88 West. Exit Naperville Road heading north. Go east on Warrenville Road. The hotel is located on the south side of the street at the first stop light.

Midway Airport (25 miles/35-45 minutes)

Take Cicero Avenue north to I-55 South to 355 North. Take 355 North to I-88 West and exit at Naperville Road. Go north on Naperville Road to Warrenville Road and go East. The hotel is on the south side of the road at the first intersection.

Utility- NRC Interface Workshop - Region III

October 3-4, 2000

September, 2000

Dear Colleague:

The American Nuclear Society, in conjunction with the NRC, is continuing the very successful Utility/NRC Interface Workshops. The next such workshop in the series will be held in Lisle, Illinois (NRC Region III) on October 3-4 at the Hilton Lisle/Naperville Hotel.

The General Co-Chairmen for this workshop are Mr. James Dyer, Regional Administrator, NRC Region III, and Mr. Oliver Kingsley, Jr., President and Chief Nuclear Officer, Commonwealth Edison Company. At the plenary session, Keynote Presentations will be made by Chairman Richard Meserve, U.S. NRC and Oliver Kingsley, President and Chief Nuclear Officer, Commonwealth Edison Company. Roy Zimmerman, Deputy Director, Office of Nuclear Reactor Regulation, U.S. NRC, will speak during the Workshop Luncheon on the first day and Mr. Mike Sellman, President, Nuclear Management Company, will speak during the luncheon on the second day.

The theme for this workshop is "COMMUNICATION & COOPERATION," focusing primarily on the implementation of the Revised Reactor Oversight Process and the Risk Informed Baseline Inspection Program. The purpose of this workshop is to improve the NRC and utility understanding of regulatory and industry perspectives on current issues. The workshop will provide an environment for candid exchange of ideas and concerns through a plenary session and subsequent breakout working group sessions. The working groups will share their results and ideas for building relationships between the NRC and licensee counterparts and enhancing an appreciation for each other's responsibilities and constraints.

The agenda for this workshop is attached, along with registration and hotel reservation forms. During the first day, the working groups will share perspectives on initial implementation of the reactor inspection program. Group 1 will target areas of concern with the Risk Informed Baseline Inspection Program, while Group 2 tackles questions and considerations in the Cross Cutting Issues and Performance Indicators areas. Finally, Group 3 will look at the implementation successes and challenges with the Significance Determination Process.

On Day 2, several other important areas will be addressed. Group 1 will look at the protection of individuals who raise safety concerns while exploring the concepts of Discrimination, as Group 2 explores the importance of effective communication between the regulator and licensee to ensure an understanding of Regulatory Impact Feedback. Also on Day 2, the discussion of implementing the reactor inspection program will continue as Group 3 discusses expectations for Event Response and follow up in a risk informed environment.

We have found it most productive in the past to have participants from all levels of the management team and key staff, so please distribute this Workshop announcement appropriately within your organization. If you need additional information please contact either of the Program Co-Chairs: Mr. James Caldwell, Deputy Regional Administrator, NRC Region III, or Mr. Rod Krich, Vice President, Regulatory Services, Commonwealth Edison Company. We look forward to seeing you in Lisle.

Sincerely,

James L. Caldwell

Rod Krich

Sponsored by ANS and the Nuclear Regulatory Commission
